

Please reject the NAB's petition 04-160. Trying to limit XM's broadcast capability is absurd! This a purchased service and NAB is trying to place yet another tack under their thumb. Please preserve XM's right to broadcast and provide a one of a kind service to the best customers in the world!! Thank you very much for your time and consideration with this issue!

Sincerely,

Tracy Combs, American, Taxpayer, and upstanding U.S. military member!
